

HP Business Inkjet 2800 series printer

2800 • 2800dt • 2800dtn

Get the most for your money with this printing solution for small work teams that handles specialty paper at sizes up to 13 by 19 inches and lets you produce vibrant documents with speed and accuracy.

High performance

- **Do more—print up to 13 by 19 inch sizes.** Create full-color documents, in sizes from postcard (4 by 6 inches) to poster (13 by 19 inches), on a wide variety of specialty and everyday paper and film. Print everything from newsletters and proposals to technical drawings.
- **Improve efficiency with fast print speeds.** Increase productivity with speeds up to 24 ppm black and up to 21 ppm color in Draft mode.
- **Produce high-quality documents.** Create outstanding color presentations and brochures with HP PhotoREt III and up to 4800 by 1200-optimized dpi on premium photo paper.

Cost-effective

- **Reduce operating costs and user intervention.** Stop wasting ink with four individual high-capacity ink cartridges (one 69 ml black and three 28 ml color ink cartridges) and individual, long-life printheads.
- **Increase quality, reliability, and control.** HP Smart printing technology¹ in your printer and its supplies enables status monitoring and alert messages, provides continuous, automatic adjustments to optimize print quality, and ensures crisp, sharp text and vibrant images every time you print.
- **Save with HP reliability.** The printer's proven design and monthly duty cycle of up to 12,000 pages assures reliable performance for day-to-day printing as well as unpredictable periods of more abundant productivity.

Easy network management

- **Get a professional networking solution.** Small work teams get sophisticated networking² capabilities and compatibility with this printer, including swift and seamless network connectivity for even the most complex network environments.
- **Depend on compatibility.** HP PCL 5c, HP PCL 6, and HP postscript level 3 emulation print drivers deliver reduced server load and greater compatibility.
- **Manage your fleet remotely.** HP's remote management software performs diagnostics, sends automatic e-mail alerts, provides job tracking and accounting, indicates pages remaining, and automates supplies ordering. HP Web Jetadmin helps you conveniently and remotely install, configure, and manage your printer.
- **Take control with the back-lit LCD control panel.** Featuring an easy-to-understand printer menu, the control panel enables simple printer configuration, maintenance, and troubleshooting.

Expandable for your business

- **Print more with a 400-sheet maximum input capacity and automatic two-sided printing.** Get more done with 150-sheet and 250-sheet input trays. The automatic two-sided printing unit allows you to conserve paper resources while effortlessly producing high-quality pamphlets and brochures.³
- **Process complex print jobs quickly.** With a powerful 256 MHz processor and 96 MB RAM (upgradeable to 544 MB), you get high-performance printing with the option to upgrade memory according to your business needs.

HP printing and imaging systems help you create powerful, professional communications easily. Printers, supplies, accessories, and services are designed together to work together and are invented to meet your business needs.

¹ Using genuine HP supplies ensures availability of all HP printing features.

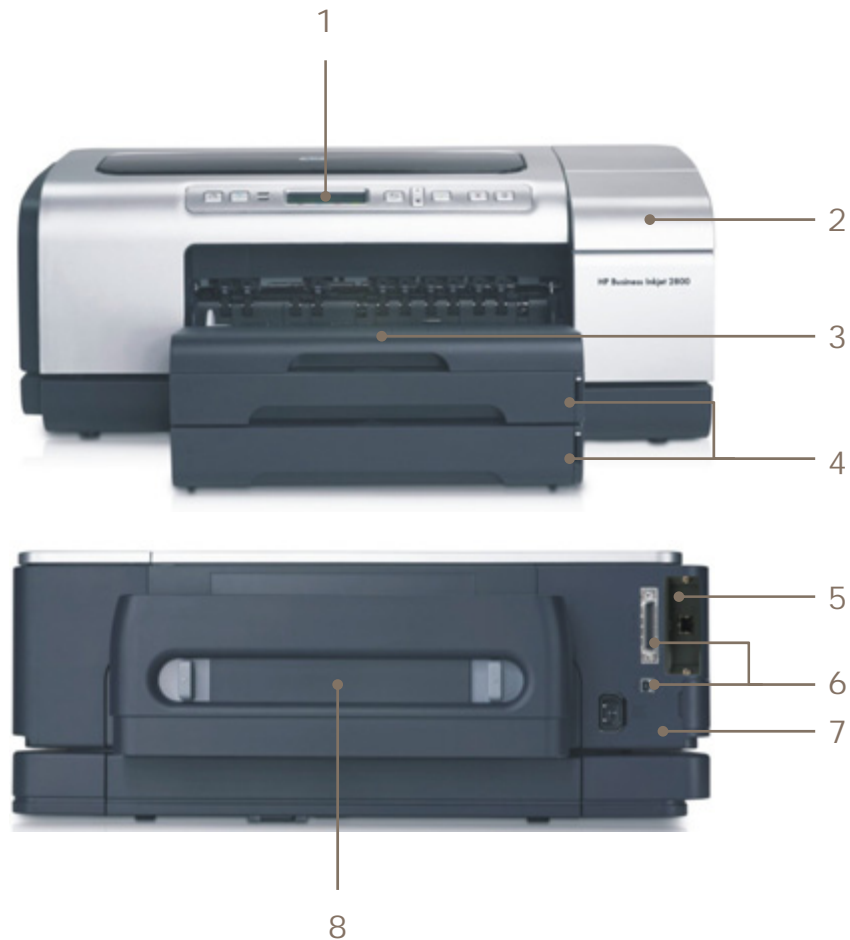

² Networking is optional for the 2800 and 2800dt models.

³ The automatic two-sided printing unit and 250-sheet second paper tray are optional for the 2800 model.

Print your color office documents and marketing collateral in house

The HP Business Inkjet 2800 series printer is a low-cost business printing solution—designed to print both color and black-only office documents quickly and affordably. The printing system features four, individual, high-capacity print cartridges—you save money by replacing only empty cartridges. You can enjoy the flexibility and convenience of producing high-quality marketing collateral in-house, which reduces costs, saves time, and gives you control over the entire process.

Print enlarged or reduced documents with document-scaling technology. Choose HP resizing options before you print to scale print jobs from 25 to 400 percent with virtually no loss in print quality or resolution. Extra training and the purchase of special software is not required, saving you time and money.

Print booklets effortlessly with a booklet layout feature that automatically enables appropriate two-sided printing and reduce-to-fit options. In addition, a collation feature lets you print multiple copies of a single job, so all you need to do is fold and bind the printed pages into a booklet.

Save up to 95 percent over your local print shop!⁴

The following table shows how much you can save with the HP Business Inkjet 2800 series printer:

Easily manage your printing costs

The HP Business Inkjet 2800 series printer is designed for sharing. The HP Business Inkjet 2800dtn model features the HP Jetdirect 620n Fast Ethernet print server installed in the EIO slot, which provides high-performance networking with up to 6 MB per second throughput speeds and heightened security.

The remote management software included with the printer simplifies printer configuration and lets you easily manage a networked printer from any standard Web browser. In addition, the software includes job accounting, pages remaining, and diagnostics features to help you manage costs.

Job accounting allows administrators to track and monitor each users' usage (for example, the type and number of pages printed and black and color ink usage). This information can be used by administrators to track printer deployment, workload, and the purchase of supplies.

Pages remaining lets you see the estimated number of pages that can be printed with the remaining ink for full color, business color, or black text documents. You can also determine if the ink levels are sufficient to print your jobs.

Diagnostics help you perform troubleshooting and maintenance tasks, such as testing the printer's media paths, aligning printheads, and cleaning printheads. Administrators can also configure network settings.

Rely on legendary HP service and support

HP offers a variety of support options to assist you with setup and maintenance. Start with the standard one-year limited hardware warranty that includes phone support backed by award-winning HP Customer Care. To further ensure trouble-free operation and to maximize the capabilities of your printer, you can upgrade your service and support options to include extended printer maintenance.

Support barcode printing from UNIX®, SAP R/3, Oracle®, Windows and other ERPs

Turn this printer into a professional barcode printer with the optional Jetmobile BarDIMM 3.1 solution, which enables quick and versatile barcode printing from UNIX, SAP R/3, Oracle, other ERPs, Mainframes (SCS), AS/400 (SCS), and Windows. With support for more than 60 barcode types, including 2D barcodes like PDF417, and built-in quality control, you can easily produce barcoded documents without investing in specialty barcode printers.
